

RAMACHANDRA RAJU S

FRACTIONAL CTO & ENGINEERING LEADER

Technology Strategy · Engineering Leadership · Architecture · AI / GenAI · Data & Platforms

18+	16	20M+	100+
Years of Technology Experience	Engineers Led	Daily Data Points	E-commerce Sites Supported

EXECUTIVE PROFILE

I partner with founders and leadership teams to provide CTO-level technology strategy, engineering leadership, scalable architecture and practical AI/GenAI direction — without the immediate need for a full-time CTO. My focus is connecting business priorities to strong technology decisions, capable engineering teams and measurable execution.

CORE CAPABILITIES

Technology Strategy Roadmaps, prioritization, technical risk, build-vs-buy and technology decisions.	Engineering Leadership Team design, hiring, mentoring, delivery governance and engineering culture.	Architecture & Scale Cloud-native architecture, APIs, microservices, distributed systems and scalability.
AI & GenAI LLMs, RAG, AI Agents, MCP and practical production AI strategy.	Data & Platforms Data engineering, analytics, ETL/ELT, ML platforms and cloud infrastructure.	Execution Excellence Delivery, CI/CD, observability, quality engineering and predictable execution.

LEADERSHIP & IMPACT

Led Data Engineers, Full-Stack Engineers and Engineering Leads across four teams. Built commerce intelligence platforms processing more than 20M daily data points across 100+ e-commerce websites. Experienced in translating complex technology landscapes into clear priorities, scalable platforms and effective engineering execution.

ENGAGEMENT MODELS

Fractional CTO Ongoing CTO-level partnership covering strategy, architecture, AI direction, technical risk and execution.
Fractional Head of Engineering Engineering organization, hiring, delivery, technical execution and team development.
Technology Advisor Targeted guidance for architecture reviews, 90-day roadmaps, AI strategy and technology decisions.

GLOBAL REMOTE · BASED IN INDIA

Available for Fractional CTO, Fractional Head of Engineering and Technology Advisory engagements.
